

Background of Gahini.

Gahini's story began in the early 1920s when Dr. Joe Church and indigenous Africans from Uganda came to Rwanda and acquired land that used to be the king's grazing ground for the special inyambo Cows.

Church mission started and started preaching the gospel of Jesus Christ to people who believed in traditional religion.

The outcome of their work, despite the challenges they faced, was the outburst of a new birth, characterized by repentance with great emotion, and unfamiliar body-shaking revelations which later came to be known as the East African Revival. The impact of this revival that lives on even today is the zeal to preach the gospel to the ends of the world.

In May 2004, a building wall got split and in a few hours the wall bricks rejoined again.
